Dear Madam,

**Application for Registration as  
Regulated Air Cargo Screening Facility (RACSF)**

I am pleased to inform you that your application for registration of your company's facility (site address: **4023-4027W, 4/F, ATL Logistics Centre B, Berth 3, Kwai Chung Container Terminal, Kwai Chung, NT**) as Regulated Air Cargo Screening Facility (RACSF) has been accepted.

The RACSF code **RF0123** is hereby allocated to you. Under the established process, your company name, site address and the above RACSF code will be uploaded to the Civil Aviation Department's (CAD) website.

Please be reminded that it is your responsibility to ensure that your air cargo screening operations and security arrangements would tally and comply with the requirements and arrangements as documented in your RACSF Security Programme (SP) submitted to the CAD, and associated handling procedures, notices and any other directions given from time to time<sup>1</sup> by CAD.

Our officers will conduct announced and unannounced inspections on your facility to oversee your compliance with the aforementioned requirements and arrangements. Non-compliance may result in suspension or de-registration of your company's RACSF status.

If there is any change or update of the information contained in your RACSF SP (which include, inter alia, measures of secure transportation), you shall duly inform CAD in writing as soon as reasonably possible and seek early acceptance by CAD.

Yours faithfully,

Aviation Security Section  
Airport Standards Division  
Civil Aviation Department

<sup>1</sup> Requirements on air cargo security may be updated from time to time in the light of changes in international requirements. You should always refer to the latest information disseminated by CAD and regularly check CAD's website (<https://www.cad.gov.hk/english/icao2021.html>) for updates.
